

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CP1

20¢  
stamp  
please

- All GE Foods should be labeled so I am informed and have a choice.
- GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing
- There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney  
 Docket No. 00P-1211/CP1  
 FDA Dockets Management Branch  
 5630 Fishers Lane, Room 1061  
 Rockville MD 20852

(Additional Personal Comments:) The reason why bioengineering is bad, is because it tampers with DNA and may cause diseases and death. This is wrong! Stop it!
